Dear Steve:

Everytime I enter my gorgeous kitchen, grab one of those crystal doorknobs or walk through the arches in my bedroom, I thank you. It was your attention to detail and respect for a 1925 house that made the remodeling project such a success.

I am grateful to you for taking each of my concerns seriously and working through solutions with patience, professionalism and creativity. Throughout the project, I had confidence that it would turn out well. And it did. I couldn't be happier with the results.

I still have some interior decorating to do before having those pictures taken, but I promise to give you copies when they're done.

Thanks again for everything.

Best regards,

Diane H. McFarlin
